

Mobiya Lite

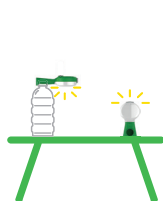

Solar Lantern

Mobiya Lite is a portable solar LED lighting system providing safe, green and reliable access to energy. With its multiple mounting options, Mobiya Lite conveniently lights up your surroundings and charges your basic mobile phone where ever you are. The SOS feature with the white light enables communication of distress and attract attention during emergency. A solar panel in the box alongside a universal charging cable, ensures Mobiya Lite can be charged by the sun or by any USB port.
